June 24, 1988 Issue 443

DXpedition News

Yemen - 4W Late word from OH2BH gave a 0300Z June 22 start time for the 4W0EA operation. They'll be on for one week.

Kure - KH7 Loren KH6LW will be on /KH7 for two weeks at the end of July. (Precise dates not available, as travel is on military transport, but July 13-27 is a good bet.) He'll be on 80-10, mainly SSB, but will give a CW QSO on SSB frequency on request. QSL KH6JEB, with SASE, IRCs or US$1.

Tokelaus - ZK3 Bing VK2BCH should be on now as ZK3RVC for a few weeks. See Bandpass for ZK1XV or 5W1GY for operating habits. QSL home call, but he won't be back for a couple of months. 5W1GP says he will travel to ZK3 at the same time.

Edited by Chod Harris VP2ML

The DX Bulletin

America's Premier Weekly Amateur Radio Publication

Uganda - 5X Wolfgang DK2RZ is operating as 5X5SP on 14292 kHz at 1730Z on weekends, for the next three weeks. QSL home call.

Ogasawara - JD1 7J1ADJ will be on as KA2IJ July 20-27, on all bands, including RTTY. SSB operation will be on DX nets. QSL KB1BE.

Puerto Rico - KP4 Doug W6JD will return to KP4 June 22-24, on CW only. 25 kHz up 10-40 meters, after 2100Z. QSL W6JD.

Great Britain - G Tony N6GBM will be on G0/ July 21-29, 10-20M SSB. QSL G3LQP.

Aruba - P4 K5GO will be on as P40GO July 7-12, including IARU HF Contest, CW only.

Netherlands Antilles - PJ1 PJ1B will be on in CQWW in both modes, in a serious multi-multi operation.

Shortly Noted

- HS0A was logged at 1219Z on 14026 kHz June 20. Op said to QSL via JA1AJT.
- J52US just received permission to operate 6 meters, and is looking for suitable gear. Greece, Denmark, and France have new 6-meter allocations, too.
- 3B9FR meets his QSL manager F6FNU on 14240 kHz at 1600Z. He's also found on 14115 and 14190 kHz. (Tnx DXPress.)
- ZK1WL Warrick on North Cook is on 10M or 15M SSB on Sundays around 0300Z.
- The start date for the change in reciprocal license identification (with US call area in front of the call) is July 18, 1988, according to the ARRL Letter.
- The QSL manager for VP2MU for CQ WPX CW May 1988 is W6AB, but the address in the 1988 Callbook is wrong. Use Box 5117.
- F2DX hopped around the Caribbean earlier in June. He was /FJ at 1440Z, and /FS at 1812Z on June 13. That's moving! QSL F6BFH.
- F9RM assembles 3A2 stations on 14165 kHz at 0500Z Saturday. He collects 2x1 calls.
- CE0ICD on Juan Fernandez is on 14256 kHz at 2100Z weekends.
- TU4CO collects stamps. Try nice US ones.
- SO6LAS said to QSL to UC2LAS. A Soviet reciprocal operator in Poland?
- VP2EQ was really VP2EMA. QSL KV4AM.
- 20 meter SSB net regulars are: BV2B JX8KY 5V7WD 5T5NU FH8CB D68MG JY5HH 7X5ST 1Z9A.
- On 20 CW, look for: 9J2BO 14025 kHz at 0500 and 1200Z; 9M2LE about 1130Z, and TR8JLD 14019 kHz at 0500Z and 2100Z.
- On 20 M SSB, try 9M8PV 14165 kHz at 1230Z, or J52US 14204 kHz at 2300Z.
- On 15M, A92EM is on 21033 or 21220 kHz at 0100Z, and 5T5NU is on 21335 kHz at 2000Z.

RTTY Report

- CO2BB is on 14095 kHz at 1200Z.
- LZ2KIM is on 14092-98 kHz at 0100Z.
- YB5QZ has been on 14090 kHz at 1330Z+.
- 5B4FN is on 14090 kHz at 0400Z.
- HZ1AB was on 21085 kHz at 1030Z.
- VP2MHD likes 14096 kHz at 1030Z.
- EA8AKO is on 14091 kHz at 2330Z.
- PJ2MI is loud on 14097 kHz often.
- PY0FF showed on 14097 kHz at 0330Z.
- ZS3GB has been on 14084 kHz at 0630Z.
- 9H4B on FEC at 14074 kHz at 0550Z.
- TU4CQ is active on 21083 kHz at 1400Z.
- T77J likes 21090 kHz at 1530Z.
- C31SD is on 14094 kHz at 2350Z.
- KG4JO likes 14086 kHz at 2230Z.
- 6T2MG is still on 14095 kHz at 2300Z.
- ZP5JAL likes 14088 kHz at 1045Z.
- VP2VA is on ARQ on 14074 kHz at 1100Z.
- 9Y4IBM is on 14092 kHz at 0100Z.

Propagation Watch

After peaking at a Cycle 22 high of 165 on June 9, the solar flux dropped dramatically over the next week, to a low of 108 on June 14. The flux has rebounded a bit since that low, back to the 120 level. the absorption has stayed very low for two weeks.

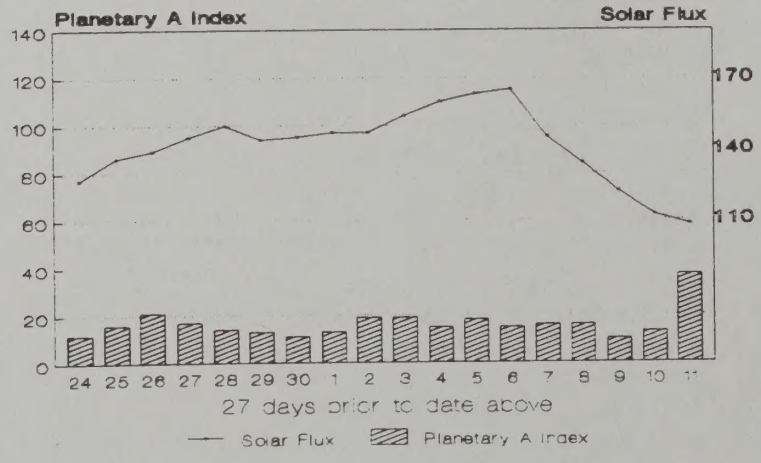
This combination of high flux and low absorption has produced some fantastic days for DXing, especially on 15 meters. The long path and the polar path have been especially productive, on both 15 and 20 meters.

The propagation experts say that the super band conditions on 6 meters on June 9 were due to multi-hop E-skip, rather than a touch of F2 propagation. Whatever the propagation mode, the first week in June was a taste of the great days of DXing to come over the next couple of years.

Look for good to excellent band conditions on 15 and 20 meters over the next two weeks, with very limited low band DX. 10 and 12 meters will occasionally open through E-skip, and the alert DXer can work some good DX on these bands. The north-south paths are open daily on these bands.

Pay particular attention to the long-path openings over the next two weeks, and take maximum advantage of the openings over the North Pole. Seasonal warming of the ionosphere will tend to lower MUFs as the summer progresses.

Solar Data



Mt. Athos SY in 1988?

Dear The DX Bulletin:

After the SY DXpedition, important changes have taken place at the Radio Clubs of Thessaloniki [in northern Greece.] As President of the EPBE [Radio Amateur Union of Northern Greece,] I had secured about $42,000 from the Ministry of Northern Greece with the aim of establishing VHF repeaters in our area, and for the purchase of HF gear for the training of new radioamateurs. I received the initial $4,200, but after publication of the rumor that we were going to receive $5 for every SY QSL (a total of about $112,000), the promised assistance was discontinued.

Hence the effort of the DXpedition deprived us of the opportunity to improve the progress of radioamateurs in our city, rather than helping us.

All who participated with HF were forced to leave EPBE, and formed the Northern Greece DX Club, and we are looking for a suitable site, and also for certain equipment, mainly for the new radioamateurs who cannot afford to purchase HF, VHF, or UHF transmitters due to their high cost.

AS you already know, my friend and student Apollo passed the final radioamateur exams, necessary for the procurement of the radioamateur permit. He will now present all the relevant documents to the Ministry of Transport and Communications, so that the call-sign can be issued. As soon as this is done, a team from the DX clubs will travel to the Holy Mountain to put up antennas, which in the beginning will be dipoles. When we have time, we will visit the monastery site at his invitation and we will operate on HF. We believe that in the beginning it will be very difficult for Apollo to make QSOs, due to the pile-up, and so we'll try to help him be on the air 2-3 times per year.

I don't have anything certain to give to you. As soon as I have any news, I will inform you and reply to your readers.

Please note that the new address of the SV2SV club is: RAAG, Macedonia Division, P.O.Box 11437, 54110 Thessaloniki, Greece. The club no longer has any relation with the EPBE.

(s) Nick Georgiadis M.D. SV2RE

Amateur Radio in Iran

Abdolah Sadjadian EP2FM writes in a letter to ZS6AEV that no amateur activity is presently allowed in Iran. This jibes with the report from DXCC administrator Don Search W3AZD, who has been informed that there are no legal amateur operations from Iran at present.

EP2FM continues, "I have been promised a reconsideration by the administration recently, and I hope to be QRV soon.

"Pirate operators, apparently using high-power commercial and military equipment and EP calls, do have a very harmful effect on our efforts to revive amateur activity."

EP2FM's QSL card states that he is the only legally licensed operator in Iran over the past 20 years.

Illegal Activity in Jordan

Mohammed Balbisi JY4MB, Secretary of the Royal Jordanian Radio Amateurs Society (P.O.Box 2353, Amman, Jordan), writes that the activities in early May by Carl-Heinz Ikaheimo OH6XY and Warren Stone VO1KS, operating under the callsigns JY8XY and JY8KS respectively, were illegal. "The managers of the major DX award programs have been notified to reject any QSL cards bearing these Jordanian callsigns."
